DB Persistence Library	:	Golang Gorm, JPA, Hibernate, Typeorm, Panache, Knex
Frameworks	:	ExpressJS, OAK, Go Gin, GO Fiber, Quarkus, Spring Boot, Apache Spark, Flask, Pandas, Apache JakartaEE
RDBMS	:	PostgreSQL, MySQL, MS SQL
NoSQL	:	MongoDB, Apache Cassandra, Redis
Object Storage	:	Amazon S3, FTP, Minio
FrontEnd Frameworks	:	ReactJS, VueJS, AngularJS
CSS Frameworks	:	TailWind, MaterialUI
Clouds	:	GCM, AWS, OCP, FCM, Digital Oceans, OKD
Message brokers	:	RabbitMQ, ActiveMQ, Apache Kafka
Miscellaneous	:	Middleware ISO 8583, Android, PostGIS, B2B, B2C

EXPERIENCES

Company	:	**PT Cloufina Nata Karya**
Work Time	:	February 2023 - Now
Position	:	Java Developer
Tools	:	Java, Kotlin, Python3, Golang, NodeJS, Spring Boot, PostgreSQL, Docker, Jenkins, Groovy, Nexus, Bash, Apache Kafka
Job Responsibilities	:	o Designing System diagram
		o Implementing database design
		o Developing Back End from design
		o Leading backend and Dev Ops teams
		o Implementing Dev Ops design
		o Integration Front End and Back End
		o Unit testing, System Integration Testing, User Acceptance Testing
		o Developing B2B module
		o Bug fixing
		o Mentoring the Internship

Company	:	**PT Bank BTPN**
Work Time	:	May 2022 - January 2023
Position	:	Dev Ops Full Stack Developer
Tools	:	Java, NodeJS, Groovy, Jenkins, Docker, AngularJS, Grafana, OCP, Nexus Repository
Job Responsibilities	:	o Developing and innovating back-office support including JENIUS and bank JAGO
		o Writing Jenkins job for deployment
		o Monitoring and sending to dashboard
		o Running SonarLint for Microservices
		o Optimizing and reporting performance
		o Unit testing, System integration testing, User Acceptance Testing
		o Bug Fixing

Company	:	PT Trinusa Travelindo (TRAVELOKA)
Work Time	:	December 2021 - May 2022
Position	:	Java Developer
Tools	:	Java, Scala, Python3, NodeJS, MongoDB, SBT, Apache Spark, Apache Ivy
Job Responsibilities	:	o Generating report for Back-Office
		o Analyzing data source for generate report
		o Load data from s3 data lake
		o Sending report to slack automatically
		o Connecting B2B with other company
		o Producing B2B response to Front End developer
		o Unit testing, User acceptance testing
		o Bug Fixing

Company	:	PT Infosys Solusi Terpadu
Work Time	:	July 2021 - December 2021
Position	:	Middle Java Developer
Tools	:	Java, Spring Boot, Docker, Jenkins, Groovy, Nexus Repository, Bash, Redis, Middleware ISO 8583
Job Responsibilities	:	o Designing and developing the database system for digital banking
		o Developing Back End with Spring Boot using Microservice concept
		o Integrating Middleware core banking with Back End
		o Developing middleware to communicating with core banking
		o Winning the tender for this company
		o Unit Testing, System Integration Testing, User Acceptance Testing
